Maison Dada in Shanghai

Maison Dada, Design Editor since 2016, was created in Shanghai and in Paris by Designer Thomas Dariel and Delphine Moreau.

Maison Dada was born out of the wild dream to inject a dose of Dadaism into our everyday life. Maison Dada develops furniture, lighting, rugs and accessories with in mind the desire to create the unexpected from ordinary objects, the will to harmonize dreams and reality.

DADA IS A STATE OF MIND

Collages, inventions, re-appropriations : Maison Dada creates objects that are gently crazy, defying certainty, taste and gravity. The style is poetic, bold, playful, daring and based on the belief that everybody deserve inspiring and meaningful design.
Maison Dada artistic direction is in the hands of Thomas Dariel who leads its creative potential through his own design pieces and the supervision on the overall design selection.

Collection 2017 / Japanese Abstractions

Japanese Abstractions is a collection of six pieces, all designed around the concept of the imaginary trip to Japan of the Dadaist and feminist artist Sophie Taeuber Arp. Each rug is a combination of geometric shapes and traditional Japanese patterns, a result of the unexpected yet poetic encounter between pure abstraction and cultural influences, between West and East.

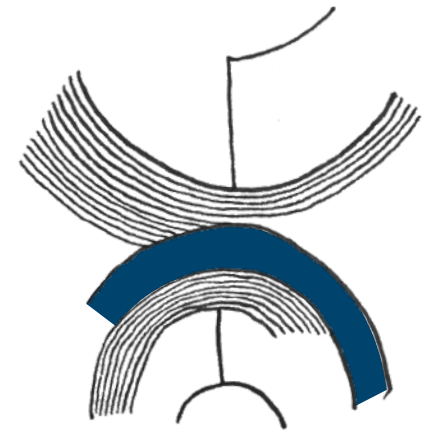
" The imaginary is what tends to become real. "

André Breton



The South-Korea capital is known for its Thirty-one bridges spanning the vast Hangang River. The collection was born from this idea: the view one may have from the sky looking over Seoul, the graphic and natural patterns created by the river winding its way through the City and crossed by a multitude of bridges connecting both banks and their inhabitants. A cartographic reference that is also translated through the rugs' mix of materials and thickness variation, the fragility of the silk lines contrasting with large wool geometrical tint areas.

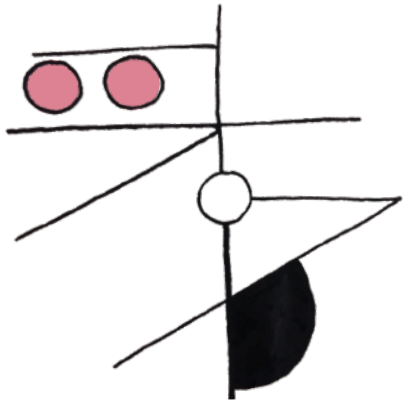
Collection 2017 / Shanghai by Night



Vibration, perspective, energy, Shanghai By Night is an interpretation of what could define the gigantic City that is Shanghai. While geometrical shapes and pure lines empower the pieces with masculinity, pastel shades and roundness soothe this strength at first sight by bringing softness and poesy. As much as Shanghai and its everlasting contrasts, the rugs feature a combination of opposite elements, which, well balanced, finally lead to harmony.

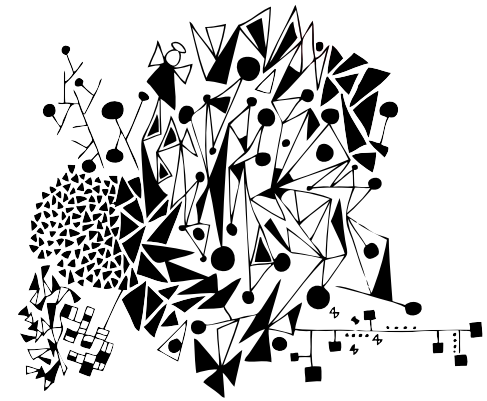
Collection 2018 / Autumn in New York



Vibrant, electric, blunt and gritty, this capsule collection – based on Sophie Dariel's illustrations - features seven pieces that bring back New York's autumn memories. While the graphic patterns of the background reflect that whatever the season the city exist in black and white to the great tunes of jazz, the rugs as well depict why the town is at its best during the cool days of autumn. Wandering through Central Park, the ginkgo trees turning bright yellow against the high blue skies, everything crisp and golden as an apple. Autumn in New York collection captures these dreamlike images. Juicy autumnal fruits, glowing foliage and explosion of colors…a graphic answer to Billie Holiday's question "Autumn in New York, why does it seem so inviting?"

LESSORE HOUSE

Collection 2020 / Jardin de Rocaille

Jardin de Rocaille is a collection of five pieces, reinterpreted from artist Clément Vuillier's illustration series <Jardin de Rocaille>. On one hand, "rocaille» echoing the art movement, is treated in the form of mineral extracts, stone flakes and marble patterns. On the other hand, "jardin" allows you to pass through large lawns with various leaves, flowers, petals and berries, creating a fantasy garden with scattering of rocks and flash of lights.
Manufactured with high-end wool and silk, this collection of hand tufted rugs has a beautiful design and delicate texture, reflecting the pursuit of exquisite craftsmanship. The production technology of embossing, recessing and carving highlights the contrast of color and texture to the utmost, reproducing a vivid garden landscape and vitalizeing the space with immortal natural elements.

"

TO MAKE A DADAIST POEM

Take a newspaper.
Take some scissors.
Choose from this paper an article of the length you want to make your poem.
Cut out the article.
Next carefully cut out each of the words that makes up this article and put them all in a bag.
Shake gently.
Next take out each cutting one after the other.
Copy conscientiously in the order in which they left the bag.
The poem will resemble you.
And there you are – an infinitely original author of charming sensibility, even though unappreciated by the vulgar herd.

"
